DIGEST SHEET

TITLE OF ORDINANCE: SPECIAL

DEPARTMENT REQUESTING ORDINANCE: PURCHASING

SYNOPSIS OF ORDINANCE:

*S-87-08-03*

An ordinance approving Civil City purchase order #00877 with respect to the purchase of one (1) Fully Actuated Traffic Signal Controller for the Traffic Engineering Department.

Prior approval requested also on August 11, 1987.

EFFECT OF PASSAGE:

This traffic signal control unit will replace the existing controller that is obsolete and is no longer economically feasible to maintain. New unit will have interconnect computer control capabilities as part of the traffic signal modernization project at the intersection of North Clinton and Parnell Avenue.

EFFECT OF NON-PASSAGE:

The increased volumes of traffic and potential conflicts resulting from commercial development in the area requires a more effective system of traffic control. If the system is not improved, it will adversely affect conditions for transacting business, produce accidents, interfere with the effective operation of commercial development, and reduce enjoyment of many phases of urban life and activities.
